

414 Gymleco Competition Powerlifting Bar +900 kg

Barbells

This quality bar from Gymleco is designed for heavy weight exercises such as deadlifts, squats and presses. The bar, with its knurling, bearing and measurements, is according to the IPF standard which qualifies it for competitions. It has bronze plain bearings and a hard chrome surface. A high performance product for your professional gym or home gym.

The bar has a bigger loading surface for weight plates which facilitates heavy lifting. It also has a rougher grip surface which is an appreciated feature amongst professional athletes.
